

PRINT-READY ARTWORK

LOGO STICKER SHEET

The compass badge and wordmark lockup, laid out at a few common sticker sizes for reference. Every mark here is the same clean vector-style source art used across the site and shop, so it can be resized up or down to any dimension without losing quality — the sizes below are a starting point, not a limit.

PRINT SCALE

100% – DO NOT "FIT TO PAGE"

RECOMMENDED STOCK

ADHESIVE STICKER / LABEL PAPER

CUT GUIDE

DASHED LINE = CUT HERE

01 COMPASS BADGE — ROUND

The full circular badge — compass mark, wordmark, and ring — printed as a single round sticker. Trim along the dashed edge, or send straight to a sticker printer for a clean die-cut circle.

4IN ROUND

3IN ROUND

2IN ROUND

1.5IN ROUND

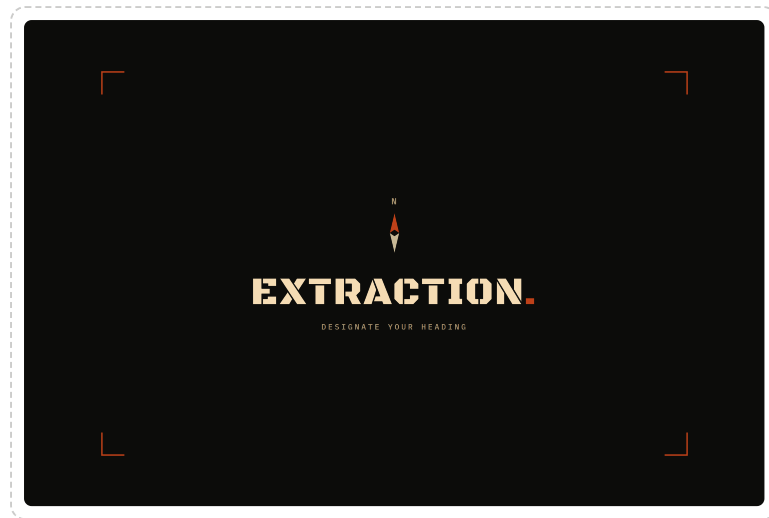

1.5IN ROUND

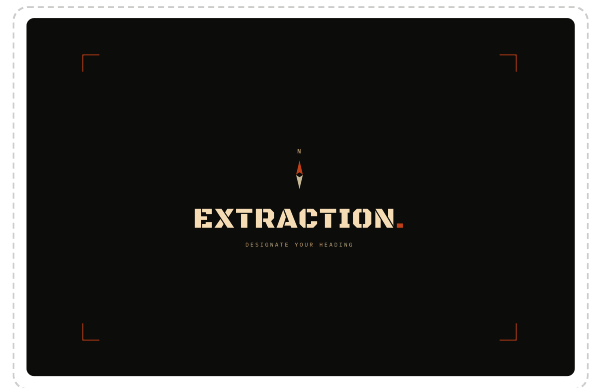

1.5IN ROUND

02 WORDMARK LOCKUP — RECTANGLE

The compass-and-wordmark lockup on a black card, sized for a laptop, water bottle, or hard-case. Transparent-background source art underneath, so a print shop can kiss-cut it to the artwork's own silhouette instead of a straight rectangle if preferred.

4IN × 2.67IN

3IN × 2IN

2IN × 1.33IN

Kraft / light variant: the same lockup is also on file in dark ink for light-colored backgrounds (logo-lockup-light.png) — swap it in if the sticker is going on tan, cream, or white stock instead of black.

Resizing This Sheet

All artwork on this sheet is placed at true print size (a 4in tile prints at exactly 4 inches when this page is printed at 100% scale). To go bigger or smaller than what's shown, the source files — logo-circle.png, logo-rectangle-transparent.png, logo-lockup-light.png — are high-resolution and scale cleanly in any direction; hand them directly to a print shop for a custom size or die-cut run.
