CATEGORIES

4 LINES + 3 BUNDLES

01 CLOTHING

The Extraction Wordmark line. Black brand colorway throughout, printed with the full lockup — the compass-heading mark, the EXTRACTION wordmark, and the "Designate Your Heading" line underneath. Sized M / L / XL.

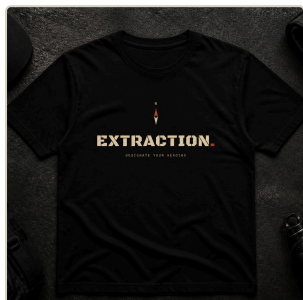

EXTRACTION WORDMARK HOODIE

13.000 KWD

HOODIE · M / L / XL

A heavyweight pullover hoodie in black, carrying the full wordmark lockup across the chest — drawstring hood, kangaroo pocket, ribbed cuffs and hem. Built to layer over a rash guard on a cold morning row or to wear straight through a debrief; the point of the piece is representing the standard off the training floor as much as on it.

Sizes: M / L / XL · **Colorway:** Black / cream / oxide print

EXTRACTION WORDMARK TEE

7.500 KWD

TEE · M / L / XL

The same wordmark lockup as the hoodie, printed clean on a black crew-neck tee — no competing slogans, just the compass mark, EXTRACTION, and the heading line beneath it, sized to read as a statement of identity rather than a billboard. A second, smaller lockup repeats between the shoulder blades on the back, framed in the same corner-tick brackets used across the product line. Built for the days between hoodie weather: training, travel, or just wearing the standard.

Sizes: M / L / XL · **Colorway:** Black / cream / oxide print

EXTRACTION WORDMARK RASH GUARD

9.500 KWD

RASH GUARD · M / L / XL

A long-sleeve performance rash guard for the sessions where cotton doesn't hold up — grappling, rowing intervals, a sweat-through mace flow. Poly/spandex performance fabric with the wordmark printed at the chest, built to move with you instead of against you.

Sizes: M / L / XL · **Fabric:** 80% polyester / 20% spandex performance blend

EXTRACTION WORDMARK FIELD MUG

4.500 KWD

FIELD MUG · 11OZ

A matte-black ceramic mug carrying the compass mark and wordmark — the desk or kitchen-counter version of the brand, for the first coffee of the day before the first rep. Pairs naturally with the Field Roast Coffee line in Section 04.

Capacity: 11oz · **Material:** Ceramic

02 MORALE PATCHES

4-inch hook-and-loop patches — built to go on a plate carrier, a range bag, or a pack. Each design carries its own piece of the brand's standing message: not quitting, staying disciplined, staying sharp.

EXTRACTED

MORALE PATCH • CIRCLE

3.500 KWD

A crosshair-and-skull design ringed by EXTRACTED in stenciled type — a target reticle framing the idea that the mission is complete, not still in progress. Shorthand for the whole brand: you don't wear this one until you've actually been pulled out of whatever wreckage you started in.

Size: 4in · **Backing:** Hook-and-loop

DISCIPLINED

MORALE PATCH • SHIELD

3.500 KWD

A shield-shaped patch — the one break from the circular format in this line — with a skull flanked by crossed rifles beneath the DISCIPLINED arc. Built around the brand's core claim that discipline, not motivation, is what actually gets you out, anchored to a plate carrier or pack the way a unit patch would be.

Size: 4in · **Backing:** Hook-and-loop

SHARPENED

MORALE PATCH • CIRCLE

3.500 KWD

A combat-knife graphic catching light against a circular field, ringed by SHARPENED in the same stenciled type as the rest of the line. The visual shorthand for the idea that standards — like a blade — dull without maintenance and have to be actively kept sharp.

Size: 4in · **Backing:** Hook-and-loop

NO ONE IS COMING

3.500 KWD

TAB PATCH · RECTANGLE

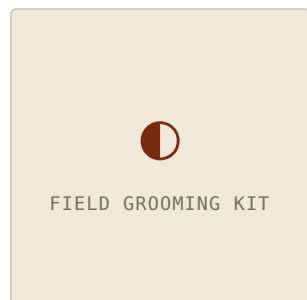

A rectangular tab patch pairing a skull icon with the brand's core line — NO ONE IS COMING / REFUSE TO QUIT — the same phrase that runs through the site's ticker and the 90-Day Protocol's messaging, distilled onto a patch built to go somewhere visible.

Size: 4in · **Backing:** Hook-and-loop

+ **More incoming:** 2 more designs per idea above.

03 GROOMING

Organic beard and hygiene products, packaged in amber apothecary-style bottles with kraft-paper compass-mark labels — built for the field, not the medicine cabinet.

FIELD GROOMING KIT

6.000 KWD

BEARD OIL + BALM · ORGANIC

A 2-piece starter kit — organic beard oil and balm — for building a beard routine from zero. Oil conditions and softens; balm holds shape and tames flyaways. The entry point into the grooming line, one step before the full 3-piece Travel Field Kit below.

Contains: Beard Oil, Beard Balm · **Formulation:** Organic

BEARD WASH

5.000 KWD

SHAMPOO · ORGANIC

An organic beard shampoo in the brand's amber pump bottle, kraft-paper label carrying the compass mark and EXTRACTION wordmark. Built to clean without stripping a beard the way a regular body shampoo would — pairs naturally with the Beard Oil above and the Body Wash below for a complete routine.

Formulation: Organic · **Format:** Pump bottle

BODY WASH

5.000 KWD

ORGANIC · ALL-OVER

The all-over companion to the Beard Wash — same organic formulation, same amber-bottle packaging — built for one wash routine before or after a session instead of separate products for separate parts of the body.

Formulation: Organic · **Format:** Pump bottle

TRAVEL FIELD KIT

9.000 KWD

BEARD WASH + BODY WASH + BEARD OIL

The full 3-piece grooming routine in travel-size bottles, packed into an olive-drab canvas pouch with an oxide zipper and a leather EXTRACTION patch on the flap. Built to go in a gym bag or a carry-on without the footprint of the full-size bottles — the kit to buy instead of the three products separately once the routine is dialed in.

Contains: Beard Wash, Body Wash, Beard Oil (travel size) · **Case:** Canvas zip pouch

BUNDLE

+ **More incoming:** 2 more designs for this line, all organic and community-hygiene focused.

04 FIELD ROAST COFFEE

Small-batch coffee, roasted for early wake-ups and long days — the same brand standard applied to a different mission. All bags 12oz, matte-black packaging with the compass mark.

DESIGNATE YOUR HEADING

6.000 KWD

WHOLE BEAN · 12OZ BAG

The flagship roast, named for the same line that opens the 90-Day Protocol's first phase — coffee built for the same early wake-ups the program asks of you. Whole bean, resealable 12oz bag, matte-black packaging with the compass mark.

Grind: Whole bean · **Size:** 12oz

GROUND · DRIP

6.000 KWD

GROUND · 12OZ BAG

The same roast profile as the flagship bag, pre-ground for drip machines and pour-over filters instead of a grinder — for the mornings where speed matters more than the ritual. Same 12oz bag, same matte-black packaging.

Grind: Ground (drip) · **Size:** 12oz

FIELD MUG

7.000 KWD

INSULATED STEEL · 15OZ

A 15oz insulated steel field mug built on a Yeti mug blank — double-wall vacuum insulation, locking lid, full-loop handle — engraved with the compass mark and wordmark in place of the stock branding. Built to keep coffee hot through a drive or a cold morning row, not just look good on a desk. This is the coffee line's own mug, separate from the ceramic Extraction Wordmark Field Mug in the Clothing section.

Capacity: 15oz · **Material:** Insulated steel

+ More incoming: Espresso and Decaf roasts, plus a Coffee + Mug bundle once the armory opens — see Section 05.

05 BUNDLES

The shop's multi-item sets, pulled together here for a straight comparison. Two are live today inside the Grooming line; the third is announced but not yet available.

FIELD GROOMING KIT — 2-IN-1

6.000 KWD

BEARD OIL + BEARD BALM

The smallest bundle in the shop and the right starting point for a first-time beard routine — oil to condition, balm to hold shape. Full write-up in Section 03 · Grooming.

TRAVEL FIELD KIT — 3-IN-1

9.000 KWD

BEARD WASH + BODY WASH + BEARD OIL, TRAVEL SIZE, CANVAS POUCH

The complete grooming routine in travel-size bottles, packed into a branded canvas pouch — the step up once you already know you want all three products together. Full write-up in Section 03 · Grooming.

COFFEE + MUG BUNDLE

Pricing TBD

A FIELD ROAST COFFEE BAG + THE INSULATED STEEL FIELD MUG

Announced but not yet available — pairs a bag from Section 04 · Field Roast Coffee with the insulated Field Mug, releasing once the armory opens alongside the Espresso and Decaf roasts.

COMING SOON

Armory Not Yet Open

The Extraction Shop is pre-launch — the 90-Day Protocol is the only item that ships instantly today. Everything above is a confirmed concept, open for review, with checkout still being wired up.
